Attachments: Response to Comments_Seneca Nation_DRAFT.docx

Hi A.J.,

I finished up writing the responses for the Seneca Nation's comments on the Roulette permit (attached). You had previously edited/commented on Comments #1-10. If you don't care to look at comments #11-21, I'll look at your edits for the first set of comments. After we've both had a chance to look at everything, I'll create a new document with all the changes and then we can meet about it if need be. What a fun process this is! Thank you so much for all of your help!

Hi A.J.,

I reviewed some of your comments and I'll have to do a little research for some of them (i.e., where/how EPA defines the toxicity of Class II fluids). I'm still trying to get through responding to the last of the comments so I think maybe a good approach would be that I finish up responding to the comments and then sending them your way, and then I'll go in and look at your edits/comments and research some things and tie up the loose ends on that first set of responses.

I feel like I need to focus on one thing at a time or I'll lose some of the momentum that I've got going haha.

I'll send you the second set of my responses when I finish them. It should hopefully be by the middle of next week but we'll see.

Thank you! And have a good weekend!

Subject: Comments / Proposed Edits to Draft Responses prepared to address Comment to proposed Roulette O&G UIC Permit received from Seneca Nation

Kevin:

A week+ ago, you sent me your Partial Draft of the Responses that you had begun to prepare in response to the Seneca Nation's submitted Comments to the proposed Roulette O&G UIC Permit.

Your initial Draft included proposed responses to 10 of the 20 comments received (and included in your initial draft -- I'm guessing there may be more).

I've now had a chance to review those 10 draft Responses . . . and my comments and proposed edits are attached. I think that some additional technical supplementation is needed in a few areas. I'll help where I can there, but may need you to point me to, or to provide, relevant materials from which responsive information can be obtained.

I'm around tomorrow if you want to discuss my comments/edits . . . and where things currently stand since we last communicated.

Thanks.

Sincerely,

A.J. D'Angelo
